

Step 1.

- Decide whether to purchase a bucket off us or present your own container/bucket for weigh in.
- Decide if anyone will be sampling the fruit.

Step 2.

- Make your way to the OPEN ENTRY
1,2 or 3.
- Staff will direct you to where to go
for picking.
- You will be given a card that lists the
variety available and the row
number open.

(please stick to the row numbers for best picking)

- Purchase your buckets if applicable.
- Purchase tasting passes if anyone
intends on sampling fruit.

(this is not an all you can eat pass, indulging on
berries will not be tolerated.)

Step 3

- Located on the side of the Shade House, on the way into the Orchard, is a description/images of our varieties. Please take a few minutes to read this as it describes the berry flavour and how to pick it.
- Head out into the orchard and find the number row and variety on your card given to you by staff upon entry.
- All rows are labelled clearly with the variety name and number.
- Berry row numbers are in sequence 1-76.
- Pay attention to the "Picking Tip" at the beginning of the row, specifying where best picking on that row is for the day.

Step 4.

- Once you have finished picking, make your way back to the kiosk area.
- Proceed through Exit 1, 2 or 3 to weight your picked berries and pay.
- If you have no cash, speak to staff for another option.
- If you decide to stay for ice-cream or a refreshment, we can place your picked berries in our cool room while you relax.
